

# How Is Classic Logistics Different From Other 3PLs?

You've heard it before. "Committed to service." "We'll do whatever it takes to deliver your load on time." "Giving you peace of mind."

But how can you know if a 3PL is really going to be there for you and walk the walk?

At Classic Logistics, we're not your average 3PL. Being an asset-based logistics provider and broker allows us to:

- Have more control over scheduling
- Provide personalized service in-house
- Adjust capacity to meet customer needs
- Offer warehousing and distribution services

It means we'll always have your back because we can adapt to your needs.

# We're Family-Owned and Operated

Around here, business is a family affair. Classic Carriers is based in [Versailles, Ohio](#), where founder Jim Subler and his family have called home for generations.

As a family-owned and operated logistics company, knowing our customers by name and being invested in their lives is a core part of how we do business.

That's why when you pick up the phone to call us, you'll always get a real person on the line.

## Meet Our Logistics Team

### **Jeff Barga**

*Vice President of Operations*

Jeff has been with the Classic team for five years. He's married and enjoys coaching and watching his three kids play sports outdoors.

### **Alexis Hemmelgarn**

*Operations Manager*

Alexis has been with Classic for three years. She's married and has three kids and a dog. Alexis enjoys running and staying active, watching her kids' sporting events and reading on the porch in the morning.

### **Tiffany Combs**

*Account Manager*

Tiffany is married with three kids and two dogs. She enjoys reading, watching her kids play sports and cheering on the Cincinnati Bengals.

## We're Flexible

At Classic Logistics, we work collaboratively with customers to find the logistics solution and price that's right for you. Our strong relationships with partner carriers and 30+ years of experience means you'll get competitive rates even in markets where capacity is down.

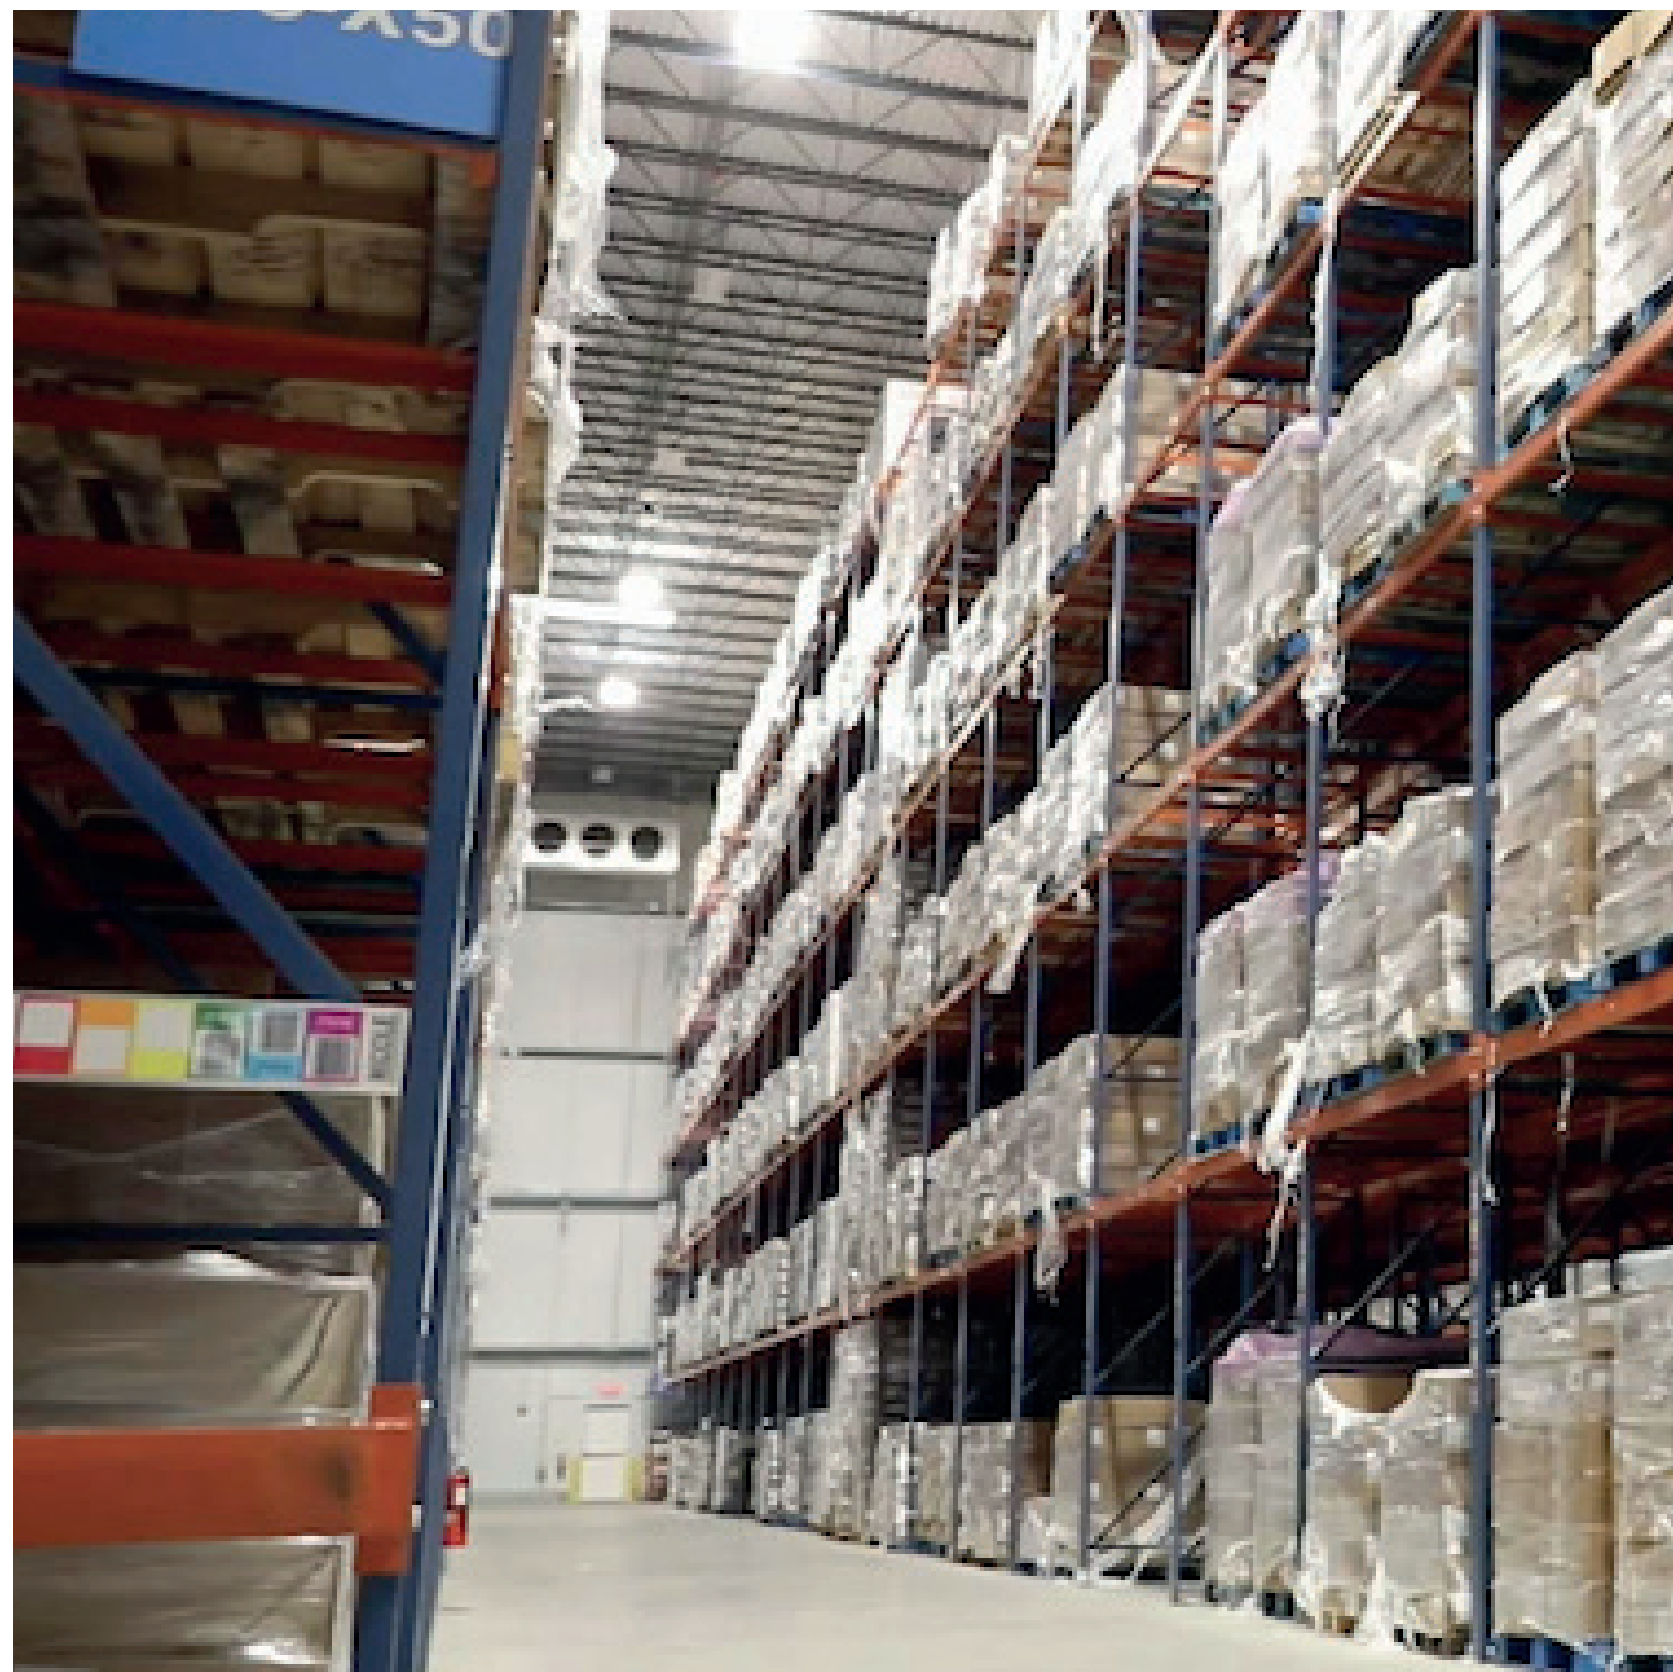

You don't want to partner with a carrier just to discover they only want to ride the gravy lanes. At Classic, we're prepared to get your freight where it needs to go – even on one-off or oddball lanes.

# We're a One-Stop Logistics Shop

Once your product leaves your dock, we've got you covered. With warehousing, trucking and brokerage services, Classic Logistics is a one-stop shop for all your logistics needs. Having a trusted, single point of contact means fewer vendors to manage for you, and ultimately fewer headaches.

## Warehousing and Cold Storage

Classic Warehousing offers a complete range of [dry and cold storage options](#) for Ohio and Indiana customers at our Greenville, Versailles and Sidney, Ohio facilities. Storing your product in our warehouses adds flexibility to your supply chain and opens up more space in your plant while we handle scheduling and delivery.

## Trucking Carrier

We have a fleet of Classic-owned vehicles, but also work with [partner carriers](#). All of our carrier partners go through a stringent vetting process and are required to hold their authority for at least one year before working with us. This ensures all our carriers meet our high standards and can provide exceptional service to our customers.

## Full-Service Logistics

As a full-service [logistics provider](#), we can handle all your transportation needs, from picking up your product and storing it at our warehouses to getting it where it needs to go. Handling all three elements helps you get the best value for your money.

# Ready to Learn How Classic Logistics Can Help You?

If you're looking for worry-free logistics management and freight brokerage services, contact Classic Logistics to meet your needs.
